

Curriculum

1. The Big Question – This section enables students to get to know each other through a range of activities, discussing mistakes they have made in the past to team building. Presentation skills are developed and nurtured within this environment.

2. The Brain – As part of their curriculum students get the opportunity to learn about the different areas of the brain and how the connections are made within the brain. After this, students learn about the language of resilience with a key focus on growth mindset.

3. In their shoes – Students get the opportunity to learn about empathy, placing themselves in the shoes of some very influential people, such as Anne Frank and Nelson Mandela.

4. Study Skills – Within this topic students will have access to a range of revision and note making techniques to support them in preparation for future learning and exams.

5. Operation New Community – Students will work as part of a team to develop their own political party, which they will then present to their classmates at the end of the half term.

6. First Aid – In preparation for life, students will have the opportunity to learn basic first aid skills.

7. Golden threads – Working in collaboration with other subjects, students will have opportunities to develop work statement pieces inspired by literature or a global issue.

8. Dragon's Den – inspired by the television programme, pupils will work collaboratively to develop and business initiatives and present ideas to their peers and Dragons.

9. The Big Reflection – Students will reflect on their experiences and discuss how they have become more resilient over the course of year 7.
